

TEKUN Corporation Controlled External Review Pack

Confidential working material for authorised stakeholder review

Item	Detail
Pack date	1 September 2026
Purpose	Support an informed decision on discovery and pilot co-design
Status	Discussion material, not a contract or final commercial offer
Contents	Executive stakeholder presentation and controlled external proposal

Recommended order

Step	Use
1	Read or present the Executive Stakeholder Presentation for the decision story.
2	Use the Controlled External Proposal for scope, operating model, governance, pilot and roadmap detail.

The decision being requested

Authorise a governed discovery and pilot co-design programme. Full implementation should be considered only after authority, customer-treatment, evidence and commercial gates are satisfied.

Important boundaries

- TEKUN Corporation is presented as an established collection operator, not an organisation starting from zero.
- The dedicated platform and managed operating model are proposed capabilities, not current TEKUN Corporation systems.
- No price, guaranteed recovery improvement, profit promise, final launch date or portfolio-specific legal conclusion is included.
- Final responsibilities, data roles, regulatory applicability, portfolio scope and commercial terms require confirmation.
- This pack does not identify or make assumptions about any incumbent third-party provider.
- The proposing legal entity, authorised contact and intended recipient list must be confirmed before formal circulation.

Included files

- 01-Executive-Presentation/TEKUN-Executive-Stakeholder-Presentation.pdf
- 01-Executive-Presentation/TEKUN-Executive-Stakeholder-Presentation.html
- 02-Controlled-Proposal/TEKUN-Controlled-External-Proposal.pdf
- 02-Controlled-Proposal/TEKUN-Controlled-External-Proposal.docx

The internal technical deck, sourcebook, research evidence and governance records are deliberately excluded from this external review pack.
